

## *Robin's Dance Studio*

### *Covid-19 Health & Safety Procedures*

#### *Our Promise to You*

Dancers will be dropped off and picked up at the door to limit the amount of people inside the studio. Exceptions will be made for dancers ages 3-5 where one adult may accompany the dancer inside.

Dancers' temperatures will be taken upon entering the building – 100.4 or higher is considered a fever.

Dancers will be asked to use hand sanitizer upon entering the dance room and exiting the dance room. There will also be hand sanitizer in the rooms should they feel they need it.

Dancers will be spaced at least 6 feet apart and dance activity will be adjusted to maintain that spacing.

Touchable surfaces will be disinfected in between classes and as frequently as possible.

Staff will check temperature before reporting for work and will not report if showing any signs of illness.

Staff will wash hands according the CDC guidelines before and after classes.

Staff will wear face masks in class.

Should a staff member or dancer test positive for Covid-19, you will be notified if your dancer has been at risk of being exposed and you will have the option to continue classes virtually. The studio will be thoroughly cleaned and disinfected prior to classes resuming.

#### *Your Promise to Us*

Please keep your dancer home if they show any signs of illness. Virtual class will always be an available option for class.

Please discuss the importance of maintaining spacing in class and refraining from touching any surfaces or others.

Please have your dancer wash their hands according to the CDC guidelines prior to coming to the studio and on every bathroom visit.

Dancers need to come dressed for class and bring their own labelled water bottles.

Dancers are always required to wear face masks in the studio and in class. Breaks will be given anytime they are needed in a safe space area.

For The Love Of Dance!

*Let's work together to be safe – for the love of Dance!*
